| Hyakudoku Kudashi OTC, Laxative | Distributed and marketed by SuiShoDo Pharmaceutical Corporation Pias Group Mie, Japan |
| Product Features | |
| Actions of six herbal medicines will promote natural bowel movements, which you fell as if you did not take any medications. Hyakudoku Kudashi is the most recommendable medicine for a relief of various symptoms derived from constipation through daily well- controlled evacuation, and also for a good daily support to weakened bowel movement caused by aging and other medications. It is a very small spherical-shaped coated pill, so that the dosage can be adjusted easily. Since developed and launched in 1892, this product has been widely used and loved by many people all over the Japan as one of very reliable Traditional OTC products This product is suitable for • Who tends to have diarrhea and/or stomachache when you have Western synthetic laxatives. • Who wishes to have natural bowel movements without stress • Who feels fear of dose-increasing after repeated use of laxatives • Who feels constipation from aging | mild and gentle action, but firm effect, suitable for daily mentainance of your bowel conditions |

| Advice how to take | |
| Take this medicine when EMPTY STOMACH. (Otherwise this medicine doesn't work properly.) You will feel your bowel movements between 7 and 10 HOURS AFTER the administration. (It depends on the individual's body condition.) When you take this product for the first time, start from 12 pills for one time and adjust the dose up to 16 pills depending on your bowel conditions. (The dose is for 15 years and older.) In most case, you will feel the efficacy after the first administration, but if you don't feel comfortable yet, keep taking the appropriate dose following the directions for at least 2 days (twice a day, every morning and evening). When you feel comfortable for your bowel movements, you don't need to keep taking this medicine. | |
